# Just a Note

Thank you for purchasing the customizable version of our planner! We just wanted to provide a few preliminary notes to help get you started.

## About Formatting:

This planner was designed in Microsoft Excel 2011. If you are using a different version of Excel, there may be some minor differences in formatting or page set-up. Also, because this planner was designed with two specialty fonts, the formatting of the Excel version of our planners will not match our pdf versions unless you download and install these specialty fonts on your computer. To retain the original format, you will need to download and install the following fonts:

Euphorogenic: <https://www.fontspring.com/fonts/typodermic/euphorogenic>

Look Serif Regular: <https://www.fontspring.com/fonts/insigne/look-serif>

It is not recommended that you use the fonts we've provided, but you are free to use any fonts that have been automatically substituted by Excel or font at the planner. They will not all be working on your computer.

## About the Planner Pages:

This planner includes a variety of planning pages so that each user can select the pages needed to customize the planner to his or her preference. A reading correlation is provided for convenience. It is not intended that all (or even any!) of these resources be used, but they are included simply for reference.

## Abbreviations in this planner are as follows:

- :: WHH: Scholastic's Everything You Need to Know about World History Homework (2005 Edition)
- :: SOTW: Story of the World by Susan Wise-Bauer (For Volumes 3 & 4, page numbers are listed for both the original 2004/2005 editions & the revised 2020/2021 editions. Page numbers for the revised editions are preceded by the abbreviation REV.)
- :: MOH: The Mystery of History by Linda Lacour Hobar
- :: SH: Scholastic's Everything You Need to Know about Science Homework (2005 Edition)
